Maintenance:	* Last annual was done April 2020

**Addition Features,
Equipment or
Comments**

* Aircraft located at (KRHV) Reid-Hillview Airport of Santa Clara County

MAJOR UPGRADES: Lycoming O-360 180HP (STC), Long range tanks - 39 gal usable (STC). This makes this a VERY unique airplane with amazing performance. This plane climbs like a monster - it's got 43% higher power/weight than a C182 (by my calculations). Owner used to live in Arizona and had absolutely no problems at high altitude fields on hot days (density altitude 10,000 ft or more at times). In the past the aircraft was continually contacted by banner and glider towing companies.
