

# 1967 Cessna 180H

## Specifications

Price	\$ 110,000.00
Year	1967
Serial	18051848
Registration	N180AQ
TTAF	9796
Ad Type	For Sale
Location	Buffalo, Oklahoma
Type	Sold
Summary	<p>This 1967 Cessna 180H is a higher than average "working" type backcountry aircraft. The aircraft runs smoothly has great performance! The 520 (470-50) and the 86 inch wide chord C401 McCauley make a great combination that allows this 180 to behave like a 185. The plane is just out of annual but should not need anything major to be certified for flight again!</p> <p>Logs, video, and additional pictures may be viewed here: <a href="https://www.dropbox.com/sh/uj10rt1uwroal6u/AADuubh2NJ6z4G5OmHltX2EIa?dl=0">https://www.dropbox.com/sh/uj10rt1uwroal6u/AADuubh2NJ6z4G5OmHltX2EIa?dl=0</a></p>

Exterior	(Not Available)
Interior:	(Not Available)

**Maintenance:** Just out of annual June 30, 2020

**History:**

The N number N180AQ "African Queen" was given to this 180 when it was imported into the USA in 1995 after spending many years in Botswana and Lethsoto. It was used as a big game survey aircraft. The logs this prior to 1995 are sporadic but there are some significant logs to verify times. The logs from the 1995 Import to the USA are very full and complete and comprehensive. There are three thick binders of logs and STC's and everything is very well documented. The engine and prop were both installed well after the US Importation and both have complete logs.

**Addition Features, Equipment or Comments**
